

NEWAGE[®]
STAMFORD[®]
AvK[®]

AVR - the beating heart
of your alternator

One weak link is all it takes to
break your business

Counterfeit is a serious problem
Insist on genuine

www.stamford-avk.com

Why insist on Genuine AVR's?

All genuine **NEWAGE®**, **STAMFORD®** and **AvK®** AVR's have 12 month warranty as standard

- **Minimise risk of plant and equipment failure**
- **Maximise power supply security to your customers or consumers**
- **Matched performance capability to alternator**
- **Fully compatible with machine parameters ensuring stability and responsiveness**
- **Tested to react in emergencies, triggering support protection systems**
- **All genuine NEWAGE®, STAMFORD® and AvK® AVR's have a 12 month warranty as standard**

“Buying counterfeit AVR's risks damage to your alternator and will negate all of the set - up and commissioning, reducing product capability. This can result in an unpredictable protection system response, which could cause a potential hazard to your equipment. Insist on genuine to give you peace of mind, knowing you have the full support and cover of the **NEWAGE®**, **STAMFORD®** and **AvK®** warranty.”

Sarah Nicholls – Product Life Cycle Engineering Director
